fresh cranberry juice | fresh lime | orange juice  
ginger syrup | soda

**FROZEN MARGARITA** 8  
Ask your server for the flavour of the day

## TEQUILA – A BRIEF HISTORY

Mezcal, considered to be the Mexican whisky, is said to have been cultivated centuries ago with the arrival of the Spaniards in Mexico.

There are over 200 varieties of agave plants. Tequila, a type of mezcal, can only be made in five states near the town of Tequila with Blue Weber agave. Other mezcals are made officially in nine states from around 30 different agave varieties – espadin, barril, coyote etc.

To make Tequila the agave is harvested by the Jimador and baked in an above ground oven, pressed, and left to age for various lengths of times depending on what style of tequila is being made.

For mezcals, once the agave is harvested it is roasted underground for up to three days, creating the smokey, rich flavour it is known for.
